PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on internship and project experience building secure, scalable web applications using Spring Boot and React.js. Proficient in REST API development, JWT-based authentication, role-based authorization, JPA/Hibernate, and layered MVC architecture. Experienced with Docker, MySQL, and Agile practices. Passionate about clean, maintainable code.

TECHNICAL SKILLS

Languages	Java, JavaScript, C, C++, C#
Backend	Spring Boot, Spring IoC / Dependency Injection, Spring MVC, Spring Security (JWT), REST APIs, JPA/Hibernate, Spring Data JPA, Maven, JUnit, Mockito, Design Patterns
Frontend	React.js (Vite), HTML5, CSS3, Tailwind CSS, Axios, React Router, Recharts, Shadcn, Responsive UI
Databases	MySQL, MongoDB, SQL, Database Design
DevOps & Tools	Git, GitHub, Docker, Postman, Maven, Render, Railway,Aiven, Netlify, CI/CD
Concepts	OOP, Multithreading, DSA, Exception Handling, Agile, SDLC

INTERNSHIP EXPERIENCE

Java Full Stack Developer Intern — PJSofttech, Pune 2025 – Present

Expense Tracker — Full Stack Financial Management Application GitHub Live App

Tech Stack: Java, Spring Boot, Spring Security, JWT, React.js (Vite), MySQL, Postman

- Developed a full-stack expense tracking application at PJSofttech, enabling users to log, categorize, and monitor income and expenses with monthly financial summaries.
- Built RESTful APIs for transaction CRUD operations with JWT-based authentication and Spring Security, securing all protected endpoints.
- Designed a React.js frontend with interactive charts (Recharts) for spending analytics, category filters, and a responsive dashboard.
- Implemented layered architecture (Controller-Service-Repository) with JPA entities and MySQL for persistent storage.

PROJECTS

Smart Inventory Management — Full Stack Enterprise System GitHub Live App

Tech Stack: Java, Spring Boot, Spring Security, JWT, JPA/Hibernate, React.js (Vite), MySQL

- Built a full-stack inventory system covering the complete procurement-to-sales lifecycle across multiple warehouses with 12+ JPA entities and transactional order flows.
- Implemented JWT authentication and role-based authorization (ADMIN/STAFF) using Spring Security with `@PreAuthorize` guards across 35+ REST API endpoints.
- Developed a 12-page React.js frontend with a live dashboard (Recharts), JWT-aware Axios interceptors, protected routes, and role-gated UI components.
- Built a stock audit trail (PURCHASE, SALE, DAMAGE, TRANSFER, RETURN) and business reports covering inventory valuation, top-sellers, and low-stock alerts.

LearnSphere — Full Stack E-Learning Platform GitHub

Tech Stack: Java, Spring Boot, Spring Security, JWT, React.js, MySQL, Docker

- Built 20+ RESTful APIs for user management, course management, quizzes, and certificate generation with JWT auth supporting Admin and User roles.
- Designed 8+ database entities using JPA/Hibernate following layered architecture; containerized the full application using Docker.

EDUCATION

PG-DAC (Post Graduate Diploma in Advanced Computing) 2025

IACSD, Akurdi, Pune · Score: 87.38%

B.E. in Electronics and Telecommunication 2020 – 2024

Savitribai Phule Pune University · CGPA: 8.55

CERTIFICATIONS & ACHIEVEMENTS

- Achieved 87.38% in CDAC PG-DAC and secured 79% in the CDAC Common Campus Exam (CCE).
- Full Stack Java Development — Firstbit Solutions, 2024
- Employability Skill Development Program — RPG Foundation (Zensar), 2023
